WHITE PORTLAND CEMENT
CEM I 52,5R SR5
PRODUCT DATA SHEET

Blue Circle **SNOWCRETE**

Blue Circle Snowcrete is quality-assured with third-party accreditation and carries the UKCA Mark conforming to BS EN 197-1 and is supplied under an accredited ISO management system.

APPLICATIONS

Blue Circle Snowcrete is used in a wide range of architectural applications, including but not limited to, ready-mixed concrete, precast concrete, concrete products, mortar, grout, render and screed.

Blue Circle Snowcrete is compatible with supplementary cementitious materials, such as GGBS and fly ash, pigments and chemical admixtures. Trial mixes are recommended to determine the optimum mix proportions.

Blue Circle Snowcrete should always be used in accordance with the relevant product application standard.

CONDITIONS OF USE

Products containing Blue Circle Snowcrete must be specified and used correctly for best performance.

Selecting the correct cement content and water:cement ratio, will ensure satisfactory placing, thorough compaction, and effective curing.

The final finish quality of products made with Blue Circle Snowcrete, will depend on the user having the required skills, and knowledge of the materials and application methods.

Tarmac Cement cannot be held responsible where workmanship has not been carried out in accordance with good practices.

Blue Circle Snowcrete is manufactured from natural resources, and slight colour variations may occur.

TECHNICAL INFORMATION

Product certification is available from Tarmac Cement's Customer Technical Portal.
