

PACKED HORTICULTURAL & GROWING MEDIA

PACKED HORTICULTURAL & GROWING MEDIA

HORTICULTURAL GRIT

All of our horticultural products are lime free ensuring they do not effect the pH levels of the soil. They can be used as a soil improver to increase draining and work well with alpine gardens and cacti. They're ideal as a base inside a greenhouse or for general landscaping and planters.

TRUGROW®

Everything you need to help make your garden flourish. Comprising Blended Loam Topsoil as a soil improver, Multipurpose Compost for sowing seeds or potting plants, Landscape Bark is ideal as a decorative finish and is a natural form of weed prevention and Play Grade Bark to create a safe cushioned surface for play areas.

Sizes available
