

TECHNICAL INFORMATION

KILN DRIED SAND

Product Data Sheet

DESCRIPTION

Kiln Dried Sand is a fine natural washed and dried sand designed to be used for jointing block paving and narrow paving slab joint.

USES

- As a jointing sand in all types of block paving
- As a jointing sand for narrow joints between slab on path and patios

PREPARATION

Ensure the area to be worked on is dry. For ease it is recommended to use the product in low wind conditions.

USAGE INSTRUCTIONS

1. Use directly from the bag and brush into block paving with a wide soft brush.
2. For block paving use a mechanical plate vibrator making two or three passes brushing sand continually under the front of the vibrator to ensure that the sand is forced down between the blocks.

COVERAGE

One bag of **Kiln Dried Sand** will cover approximately 5m² of standard block paving.

QUALITY CONTROL

All Tarmac products are factory blended, tested and packaged to quality control procedure in accordance with BS EN ISO 9001.

PACKAGING & STORAGE

Kiln Dried Sand is available in large plastic sacks, palletised and shrink-wrapped. Unopened and undamaged waterproof bags can be stored outside. Open or damaged bags should be stored indoors in a cool dry place.

HEALTH AND SAFETY

Health and safety advice, which must be followed, can be found on the Material Safety Data Sheet.

Users are advised to wear goggles, gloves and dust mask when using **Kiln Dried Sand**.

Normal manual handling procedures (refer to Manual Handling Operations regulations 1992) should be followed when unloading or moving bags.
