

Tarmac Building Products Limited, i10, Railway Drive, Wolverhampton, WV1 1LH 13

DoP No. 011

EN 998-1:2010

One coat rendering mortar for external use

Reaction to fire: Euroclass A1

Capillary water absorption: W2

Water permeability after weathering cycles: ≤1 ml/cm² after 48 h

Adhesion after weathering cycles:

 $\begin{array}{lll} \textbf{10mm on a weak substrate:} & 0.5 \text{ N/mm}^2, \text{ FP C} \\ \textbf{20mm on a weak substrate:} & 0.5 \text{ N/mm}^2, \text{ FP C} \\ \textbf{10mm on a strong substrate} & 0.2 \text{ N/mm}^2, \text{ FP B} \\ \textbf{20mm on a strong substrate} & 0.3 \text{ N/mm}^2, \text{ FP B} \\ \end{array}$

Water vapour permeability coefficient (μ): 15/35

Durability: The durability against freeze/thaw of one-coat rendering mortar shall be assessed by testing adhesion and water permeability after weathering cycles
